4 Bedroom, 3.00 Bathroom, 2,122 sqft

Residential on 0.09 Acres

FREE & WILLIAMS SUBD, Austin, TX

Since completion in 2022, 1401 Holly St, #A has undergone significant upgrades transforming it into a modern, inviting, and highly functional living space.

From adding wood flooring throughout the first floor to match the upstairs (previously concrete), to having a custom Crate & Barrel couch built for the living room - the home now welcomes you in and leaves you feeling immediately comfortable in the space. Convenient upgrades include built-in storage and counter space for the laundry room, flush TV mount in the living room (no cords, and a sleek look), and a full-house water softener (located in the garage to prevent freezing).

The floor plan is ideal for modern living with your primary bedroom downstairs, dedicated office space (included in bedroom count), and an additional flex space upstairs near the two secondary bedrooms and full, guest bath. Throughout the property, smart home technology abounds with color-controllable recessed lighting, smart switches with dimmers, blinds controlled via remote or app (including automatic timer settings), a Ring security system and smart locks, hard-wired Ethernet connections to each Wi-Fi access point, and even the irrigation is managed via smart sprinkler system - Rachio.

The carport was ingeniously converted into an enclosed garage, now featuring an

independent mini-split HVAC system for climate control and four dedicated electrical circuits to power various tools.

Further exterior improvements include a freshly stained fences, an extended gravel area in the backyard reaching to the fence (two-cars can park behind the gate), and an added Wi-Fi access point for the electronic gate. For the environmentally conscious, a 220V electric vehicle hook-up has been installed.
